

VK280FLX

Beam / Spot / Wash

The Viking VK280 FLX is compact, very bright & fast with a sharp parallel beam that cut through the air and stage with ease. It can project static or rotating gobos crisply with its high efficient optics and with a zoom of 2.5 to 20° is ideal for stage use. With 2 independent rotating prisms a wealth of special effects can be created with ease. Select the Frost filter and a colour and the stage can be smoothly washed as well.

- ◆ Beam Spot & Wash functions all in one unit
- ◆ Yodn280w10R or Osram Sirius HRI 280 Lamp 2000h Ave Life
