

VK300F

300W LED Fresnel

The VK300F LED Fresnel is the new companion for our VK200 LED Profile Spot at last offering a real alternative to the tradition old Halogen Fresnel. It offers the latest in LED technology, a really useful bright beam in a traditional Zoom Fresnel with either Manual (VK300F) or DMX focus control (VK300FZ). Using quality glass reflector and lens the light output is a very close to a 1200w tungsten traditional unit. Supplied complete with Rotatable Barndoor for beam control the unit is housed in a quality metal casing with heat dissipation by a copper radiator and small fan the lantern is near silent in use making it ideal for stage, TV and studio use alike.

- ◆ Lamp: Cool White 300w Single Epistar Cob LED
- ◆ Lamp life span 50,000 hours
- ◆ Zoom Lens from 15 to 55 Degree
- ◆ Dimmer: Electronic linear 0 to 100% 16 bit
- ◆ Strobe 1-25 times per second
- ◆ Refresh Rate 400hz Flicker Free for TV & Video
- ◆ High Quality Glass Lens & Reflector
- ◆ 1-3 DMX Channels on 3 & 5 pin XLR
- ◆ Aluminium Housing
- ◆ Working Temperature -30 to 40° C
- ◆ Supplied with 4 Leaf Rotating Barndoor
- ◆ Lantern size 58 x 32 x 32 cm
- ◆ Weight: 8.5kg
- ◆ Mains in & out on Powercon
- ◆ Almost silent cooling via copper radiator
- ◆ Supplied with colour Frame for filter
- ◆ Power: 390w 100-240v 50-60Hz, auto sensing

Models: VK300F (Manual Zoom) VK300FZ (DMX Zoom)
