

VKFS330

15R Arc Followspot

The VKFS 330 is a compact & very bright followspot suitable for venues of all sizes. It is supplied as a complete kit, flight cased with the stand and ready for use. With built in electronic control it has very easy adjustment of the iris and dimmer which make it suitable for inexperienced and pro users alike. With built in colour temperature correction it can be used with tungsten lighting equally as well as with the blue arc light of modern moving light sources.
