

VK1430

PixelCyc

14 x 30w Pixel Cyc Wash

The VK1430 is a high power pixel bar equipped with 14x30w RGB COB Led's offering extremely bright output. With no fans it is also silent. For ease of use built in programs allow it to be used with or without a controller. The VK1430 PixelCyc is ideal for lighting a Stage Cyclorama from one metre away, creating high impact smooth colour washes & with excellent optic and colour mixing can create whites & delicate pastels through to deep washes.
